Announcement of National Eye Institute Participation in PA-11-347, "NINDS SBIR Technology Transfer (SBIR-TT [R43/R44])"

Notice

This notice is intended to inform potential applicants that the National Eye Institute (NEI) is participating in [PA-11-347](#), "NINDS SBIR Technology Transfer (SBIR-TT [R43/R44])."

The NEI seeks SBIR applications for projects to transfer technologies out of the NIH intramural research labs into the private sector that address mechanisms, diseases, or disorders within the NEI mission.

Any project that fits within the NEI mission and relies on the use of an NIH intramural technology is eligible for this award. Please see the NEI technology transfer website for more details on NEI licensing opportunities:

<http://www.nei.nih.gov/resources/technologytransfer.asp>.

For a complete listing of NIH intramural technologies which are available, please see NIH Office of Technology Transfer at:

<http://www.ott.nih.gov/Technologies/AbsSearchBox.aspx>.

The NEI Division of Intramural Research performs high quality and innovative research in a variety of basic, translational, and clinical areas, including imaging, diagnostics, regenerative medicine, genetics/genomics, developmental biology, cellular and gene therapy, and cell and molecular biology related to eye health and eye disease

treatments. For more information about the research and investigators in the NEI Division of Intramural Research, please see: <http://www.nei.nih.gov/intramural/>.

An NEI intramural investigator may provide assistance in a collaborative manner by providing technology, reagents and/or discussions during the SBIR award period; however, no SBIR funds are allowed to go to the NIH intramural investigator or the NIH intramural program.

All other aspects of the Funding Opportunity Announcement (FOA) remain unchanged.
